 - B) Stick a patch over the hole
 - C) Put the wheel back on the bike
 - D) Roughen the tube lightly with sandpaper
3. On a bicycle, the letters "P.S.I." stand for:
 - A) Please Stop Inflating
 - B) Perfectly Solid Interior
 - C) Pounds per Square Inch
 - D) Pennsylvania Seems Interesting
4. Before you put a new or patched tube in the tire you should:
 - A) Just go ahead and put it in.
 - B) Put the wheel back on the bike.
 - C) Inspect the tire for damage & sharp objects.
 - D) Remove the tire completely from the wheel.
5. Cheetos are Ricky's favorite snack
 - A) False, they just gave us a product placement
 - B) True, who doesn't love Cheetos?
 - C) Trick question, his real favorite snack is Takis Fuego
 - D) All of the above
6. Number the following in the correct order of steps for patching a flat tire:
____ Put glue around the hole and let it dry.
____ Put air in the tube, find the leak, and mark it with a pen.
____ Put the patch over the glue and apply pressure to help it stick.
____ Sand lightly around the marked hole.

Bonus Question: Tubes can lose air naturally on their own; a low or flat tire may not need to have the tube repaired.

True

False
